

MAX WAGNER

3469 West 133rd St. , Cleveland Ohio 44111
(440) 220-0295 | maxwagner440@gmail.com | [Resume Page](#)

Objective: Highly motivated former Fitness Director that is seeking a junior developer position in a strong company. Looking to leverage my experience, interpersonal skills and passion for technology to become an entry level software developer on a growing team.

Technical Skills

- **Object Oriented Programming:** Java
- **Web Application Development:** HTML, CSS, Javascript, jQuery, Servlets, JSP, Spring Web MVC, Tomcat
- **Database Programming:** JDBC, table design and creation, SQL queries and DML, PostgreSQL, E/R diagrams
- **Git:** Utilizing repositories to save and pull projects
- **Development tools and techniques:** Agile, unit testing (JUnit), integration testing, TDD, unix Command Line Navigation, Bash Command Line Navigation, Git, Eclipse
- **Sony Vegas Pro:** Film editing, picture editing, short clip collaboration

Technical Experience

1. **Hidden Gem Freelance Project:** Created and deployed a custom massage therapy business website using Java, MVC, Javascript, HTML and CSS.
2. **Raise The Bar Service Site:** Service listing and review site which links clients and remotely located certified fitness professionals. Allows trainers to tailor workout plans and use communication tools throughout their training relationship. Developed with OOP fundamentals, Spring Web MVC, HTML, CSS, SQL, and JavaScript
3. **Fitness Calculator Simulation:** Developing an application that allows you to track caloric intake versus expenditure through exercise. The application also keeps track of my client's training sessions. This utilizes an SQL database to keep track of all the data.
4. **Simulated Vending Machine:** Used a file I/O setup along with a specific class/object setup to simulate a vending machine application.
5. **National Park Reservation System:** Used an SQL database to create an application that allowed a user to search for and reserve certain reservations within specific national parks around the country.
6. **National Parks Website:** Created a National Park website application that utilized an SQL database along with Spring MVC.
